***"Thank you so much for the beautiful job that you did on my set. It's something that I've always wanted, but I've never seen one that could live up to the one that I grew up around in my great-grandmother's house, until now. The table & chairs are beautiful, very comfortable, well-made, and are the perfect complement to my ultra-modern kitchen. Everyone loves it, and it is definitely the focal point of my whole house, let alone the kitchen. Thank you so much, and I'm sure that more orders will be coming your way from some of my friends & family. They are all in love...In addition to this, you guys are a pleasure to deal with. Thank you."***
